Statistic for all online services

- Monthly Basis

Features Additional Technology (Social Media)

By April 2011 to have at least updates of January 2011

Color Blindness

WCAG Guideline

Level A (Priority 1): (the minimum level of conformance), the Web page satisfies all the Level A Success Criteria, or a conforming alternate version is provided.

Perceivable

- Provide text alternatives for any non text content.
- Provide alternatives for time-based media.
- Create content that can be presented in different ways without losing information or structure.
- Make it easier for users to see and hear content including separating foreground from background

Operable

- Make all functionality available from keyboard.
- Provide users enough time to read and use content.
- Do not design content in a way that is known to cause seizures.
- Provide ways to help users navigate, find content, and determine where they are.

Understandable

- Make text content readable and understandable.
- Make Web pages appear and operate in predictable ways.
- Help Users avoid and correct mistakes.

Robust

- Maximize Compatibility with current and future agents, including assistive technologies.
