

HANDBOOK FOR MSC-STATUS COMPANIES

HANDBOOK FOR MSC-STATUS COMPANIES

THE GATEWAY TO THE FUTURE

The MSC Logo is based on the concept of the rising sun, signifying the dawn of a new era for Malaysia with the advent of the Multimedia Super Corridor (MSC) as its next engine for growth. The three rays emanating from the sun represent key elements that the MSC will bring about: a high capacity global telecommunications and logistics infrastructure; new policies and cyberlaws; and an attractive environment in which to live and work with participation from world-class ICT and Multimedia companies. At the heart of the logo is a green sphere emphasising the environmental considerations at the core of Malaysian policy-making and new initiatives. The arch surrounding the sphere symbolises unification and collaboration of diverse strengths that will support the success of the MSC.

The MDC is based in Cyberjaya and is empowered by the Malaysian Government to champion and facilitate initiatives that will realise the MSC vision. For further information, please contact:
